the world of silicone

ULTRAPURE

# OVERMOLDED TRI-CLAMP ENDS

Platinum cured, biomedical grade  
silicone

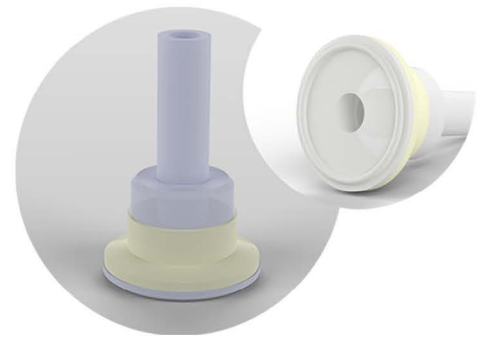

**For Pharmaceutical and  
Biotech Applications**

**3/4" TC MINI**

**DN 20 TC**

**1 1/2" TC**

- No leaks associated with barb-type fittings
- Offers consistent interior dimensions for maximum flow rates
- Reduces end-user assembly times—arrives ready to install
- Extremely flexible
- Gamma irradiated supply available

- Cleanroom manufactured (ISO 8 running, ISO 7 at rest)
- Full lot traceability
- Validation test portfolios available upon request
- Smooth inner bore eliminates entrapment
- Low shear for cell culture and other sensitive media

## **Sterilization**

Gamma irradiation up to 50kGY, autoclavable

## **Standard Tubing**

AVIPURE® avintos, Sani-Tech® Saint Gobain, AdvantaSil® AdvantaPure, HelixMark® / PharmaFocus®  
Freudenberg Medical

## **Material Certifications**

ISO 10993-4, ISO 10993-5, ISO 10993-6, ISO 10993-10, ISO 10993-11 and ISO 10993-18, FDA CFR 21 177. 2600,  
<USP 87>, <USP88>, Gamma stability, Ph. Eur. 2.6.8, EP 3.1.9, <USP 665 Extractables study>
